## Product Features

### Material features

Inherent to our synthetic materials are:

- Good fatigue properties compared to metal mesh
- Easy to handle and no sharp edges
- High strength and tear resistance
- Non-shedding properties

### Open mesh fabric

- High precision and

### Closed mesh fabric

- Highly efficient

### Depth filter material

- Highly efficient

**Sefar Pty Ltd**

- reliable mesh opening
- Low pressure drop
- Various surface modifications available
- High performance polymers for extreme and harsh conditions
- **Open mesh fabrics**
- particle retention
- High throughput
- Excellent surface properties
- particle retention
- Low pressure drop
- Resistant to corrosion caused by fuels and blends
- Maximized filtration area
- State-of-the-art bonding technology

### Fabrication & Converting Solutions

Information on our fabrication capabilities can be found by following the links below:

- **Customer specific**

For further information please call us, we will also gladly send you fabric samples!
