Product Features

Material features

Sefar offers a wide range of filtration media and highly industrialized fabrication capabilities.

Inherent to our synthetic materials are:

- Good fatigue properties compared to metal mesh
- Easy to handle and no sharp edges
- High strength and tear resistance
- Non-shedding properties

Open mesh fabric

Closed mesh fabric

Depth filter material

- High precision and reliable mesh opening
- Low pressure drop
- Various surfacemodificationsavailable
- High performancepolymers for extreme

and harsh conditions

- Highly efficient particle retention
- High throughput
- Excellent surface properties
- Highly efficientparticle retention
- Low pressure drop
- Resistant to corrosioncaused by fuels andblends
- Maximized filtration area
- State-of-the-art bonding technology

Fabrication & Converting Solutions

Information on our fabrication capabilities can be found by following the links below:

Customer specific

For further information please call us, we will also gladly send you fabric samples!

Locations

Sefar Pty Ltd Filtration and Metal Mesh

19-21 Huntingwood Drive Huntingwood NSW 2148 Australia

Phone: +61 2 8822 1700 Fax: +61 2 8822 1744

E-Mail

Sefar Pty Ltd Filtration and Metal Mesh

Unit 4, 68 Callaway Street Wangara WA 6065 Australia

Phone: +61 8 9303 2600 Fax: +61 8 6305 0930
